Nate (Kyung Won) Park

(347) 882-0885 | stomg7969@gmail.com | GitHub | LinkedIn | Blog | personal portfolio/website URL

Focused and adaptable full stack web developer with background in consulting for non-profit organizations and a MA in Public Administration. I became passionate about programming when discovering that Blockchain technologies could be used to address global issues. An avid learner, who is both independent and a team player, I enjoy using my communication and project management skills to help technology companies succeed.

TECHNICAL PROJECTS

Moonya eCommerce - GitHub | Live - **ADMIN** ID: 'admin' PW: 'admin' - **USER** ID: 'jane' PW: 'jane''
A website for customers to buy children clothing online.
+ Built with React and Redux to develop frontend
+ Developed a Rails API backend for users, products, orders, and order details
+ Implemented user authentication with JWT on both frontend and backend, and Bcrypt on backend
+ Configured RESTful Rails API with ActiveModel Serializer
+ Designed frontend with custom CSS

LocalBrush - GitHub | Live **- PAINTER** ID: 'painter' PW: 'painter' **- USER** ID: 'user' PW: 'user'
An online platform where homeowners can post their needs for wall painting and painters can search and accept painting jobs.
+ Built with Ruby and Rails
+ Developed a Rails API backend for users, painters, rooms, projects and reviews
+ Managed full authentication and authorization using only Ruby on Rails with Bcrypt gem.

Parking Lot GitHub | Demo
A parking space management application that automatically keeps track of car information, time, and total amount owed.
+ Built with Ruby on Rails and JavaScript.
+ Optimized the frontend without using external libraries such as React, Redux, and/or Semantic for Styling
+ Designed and styled the site using Bootstrap and Custom CSS

TECHNICAL SKILLS

HTML, CSS, JavaScript, ReactJS, Redux, Ruby, Rails, jQuery, SQL & NoSQL, NodeJS, GraphQL
